SUMMARY

Computer Science bachelor's student at UCLL, currently pursuing my degree through distance learning. I am looking for my first professional experience in IT, where I can apply my technical knowledge and continue developing my skills. I have a foundation in HTML, CSS, JavaScript, Python and am currently expanding my knowledge of Python and software development. I am a motivated, analytical and hands-on learner who is eager to gain practical experience and grow within a professional IT environment.

WORK EXPERIENCE

Student Jobs

2020 – 2024

- Gained work experience in retail, cleaning, quality control and warehouse environments.
- Worked independently and as part of a team while adapting to different responsibilities and working environments.
- Developed strong reliability, attention to detail and a hands-on work ethic from a young age.

Atlas Copco – hoeselt 3730

September 2025 – Present

- Prepare customer orders ranging from small items such as cables to heavy equipment weighing up to 4 tons.
- Mentor and train new student employees, helping them learn procedures and work independently.

EDUCATION AND DEGREE

Secondary Education Diploma — Graphic Media
